

If you want to touch the past...
touch a stone, the present...
touch a flower, the future...
touch a life.

A shining light

There is no better investment in the future of Orcas Island or the whole San Juan Islands community. You won't find a better place to invest your time, talents, and energy. The benefits are endless and the camaraderie is second to none.

A History of Service

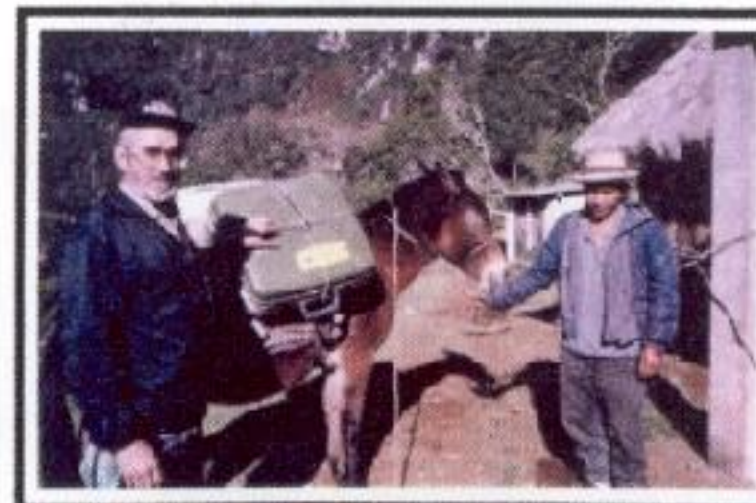

Orcas Island Lions Club is a part of a history bound by tradition and rich with service to the community. Since our founding in 1972 members have generously volunteered themselves through special programs, and partnerships established between us and other community organizations. Through pledges and fundraising Lions give children and adults the resources to experience sports, arts, and every day activities.

Lions Make A Difference

Special People Benefit From Our Efforts

Many community service activities and projects are funded and carried out by our dedicated club members offering assistance to those in need. Financial assistance benefits our local community as well as the International community. A young sightless child gets swimming lessons, and a hearing impaired youngster hears the sound of birds for the first time. Specialized computer equipment and training is provided to both sight and hearing impaired children and adults allowing them to become contributing members of society. Thanks to generous donations from our Club and community, many used eyeglasses are collected. Our Glasses for Guatemala Project has provided in-person visits to over nine hundred persons in remote villages who have never received any eye care. Now they have prescription glasses and many see clearly for the first time in their lives.

Membership As Diverse As the Projects We Support

Membership includes dedicated men and women who are leaders in the community, representing a diversity of backgrounds, professions, and interests.

More than fifty strong, the Orcas Island Lions Club joins over a million and a half Lions serving in nearly 180 countries around the world. The languages may differ, but never the objective: to seek out and help those in need in local and worldwide communities.

Weekly meetings feature special guests or programs that inform and entertain. But it's not all work! Members get together on a regular basis to attend social events or activities which bring us all closer together. We take an active role in finding solutions to some of the present day problems facing our local and national community.

The future is bright with optimism and opportunity to serve our world.
